# Our Bad Oeynhausen North Family Centre introduces itself

At Bad Oeynhausen North Family Centre we offer a wide range of support for families, especially tailored to the needs of families and children.

We aim to reach families directly and enable you to provide your children with the best education.

Our Family Centre supports all interested families irrespective of their cultural and religious background:

- For all families we offer support in educational, developmental and caring issues. That means, we assist the families in finding an appropriate day-care facility, upbringing or educational institution.  
We are available to assist in developmental and educational questions and establish contact with suitable services.
- Together with our cooperation partners we organise a wide range of activities for children and families. Our partners include dentists, children's doctors, therapy institutions, schools, parishes, police, fire departments, the public library and others within the community.

- We offer counselling for families on a variety of subjects, such as
- strengthening parents in their educational competence
- improving family work life balance
- flexible care
- promoting language skills and child development
- transition from child care to school
- providing information on healthy food for children
- We offer contact details and information e. g. for consulting- and therapy-options, improving health and activity, and much more.

We invite you to get to know the Family Centre as a place to meet. We also invite your family to get in touch with us.

You are welcome to contact us about specific individual needs.

**We look forward to your visit!**
